PreVasive®

BOTANICAL DISINFECTANT

CLEAN. DISINFECT. DEODORIZE.

A SMARTER APPROACH TO SCHOOL CLEANING & DISINFECTION

One concentrated botanical solution for the hard, non-porous surfaces schools clean every day.

BOTANICAL FORMULATION
A plant-based alternative to harsh chemical cleaners.

BROAD-SPECTRUM DISINFECTION
Kills bacteria, viruses and fungus when used as directed.

SCHOOL-APPROVED USE SITES
EPA label includes schools, classrooms, colleges, dormitories and athletic facilities.

CONCENTRATED & COST-EFFECTIVE
Helps standardize dilution and reduce the amount of product stored.

EPA Reg. No. 92089-2

EPA REGISTERED FOR USE IN SCHOOLS, CLASSROOMS, COLLEGES, DORMITORIES AND ATHLETIC FACILITIES.

BUILT FOR THE SCHOOL ENVIRONMENT

Use on compatible hard, non-porous surfaces throughout the school, including:

- Classrooms, desks, tables and chairs
- Door knobs, handles and high-touch surfaces
- Sealed floors, walls and fixtures
- Restrooms, sinks, bathroom fixtures and shower areas
- Cafeteria and kitchen surfaces
- Athletic facilities, gyms, locker rooms
- Wrestling and athletic mats
- Playground and exercise equipment
- Glass, mirrors and other washable hard surfaces
- Maintenance and custodial equipment

The EPA label specifically identifies schools, classrooms, colleges, dormitories and athletic facilities among approved locations and lists many of these surface types.

CLEANING DILUTIONS (NOT FOR DISINFECTION)

GENERAL CLEANING • DEODORIZING • DEGREASING

2 fl. oz. per gallon of water

Use for general cleaning, deodorizing and degreasing of hard, non-porous surfaces.

HEAVY-DUTY CLEANING

4 fl. oz. per gallon of water

Use for heavier soil and more demanding cleaning applications.

IMPORTANT: These are cleaning/deodorizing/degreasing dilutions — not the disinfecting dilution or disinfecting directions. Disinfection must be performed according to the EPA-approved product label.

BROAD-SPECTRUM DISINFECTION*

When used according to the EPA-approved directions, PreVasive is labeled to kill:

BACTERIA
- *Pseudomonas aeruginosa*
- *Salmonella enterica*
- *Staphylococcus aureus*

VIRUSES
- SARS-CoV-2*
- Human coronavirus 229E
- Norovirus
- Poliovirus Type I

FUNGUS
- *Trichophyton mentagrophytes*

(a cause of athlete's foot and ringworm)

CONTACT TIMES

90-SECOND
for SARS-CoV-2*

5-MINUTE
for Human coronavirus 229E, Norovirus and Poliovirus Type I

30-MINUTE
for Bacteria and Fungus

*SARS-CoV-2 is a cause of COVID-19.

WHY SCHOOL DISTRICTS CHOOSE PREVASIVE

BOTANICAL FORMULATION	Built around a botanical formulation and an alternative to harsh-smelling products.
CLEAN • DISINFECT • DEODORIZE	One EPA-registered product supports multiple custodial applications.
SCHOOL-APPROVED USE SITES	EPA label specifically includes schools, classrooms, colleges, dormitories and athletic facilities.
ATHLETICS & HIGH-TOUCH AREAS	Ideal for locker rooms, gymnasiums, athletic mats, equipment, playground equipment and more.
CONCENTRATED FORMAT	Helps standardize dilution and reduce the amount of ready-to-use product that must be stored and transported.
